

## NEWS RELEASE

For immediate release: March 10, 2010

### **ILG releases the HP-CC364XX compatible toner with 30,000 page-yield, surpassing the OEM by over 20% in page yields.**

**Woodland Hills, CA – ILG (International Laser Group)** is proud to announce the release of the HP-CC364XX compatible toner cartridge with Jumbo yields of 30,000 pages. ILG is the first-to-market and the only company to offer Jumbo toner, surpassing the OEM yield of 24,000 by over 20%.

The HP-CC364XX is for use with the HP Laserjet P4015/ P4515 printer series, popular printers featuring 1200 dpi 52 pages per minute capacity. ILG is known for their exclusive line of JUMBO Color™ toners and quality high-yield toners ideal for MPS providers. Jumbo toners provide substantial cost savings, as well as time savings, because they offer the lowest cost per page toner solutions for MPS dealers.

ILG's quality OEM alternative products are guaranteed in performance and in print quality. Our North American made products are manufactured under stringent manufacturing standards. ILG utilizes only virgin OEM cores, and we inspect each and every component prior to assembly. We then use the quality tested, defect free parts to assemble the final products ensuring the highest success rate in the industry.

"This is the biggest cartridge of the year, and it is not available anywhere. Our R & D and engineering team made it possible to offer this ultra high-yield toner with cost per page in mind. We have again proven our innovative first-to-market leadership in the imaging supplies industry," said Joe Shulman, Sr. V.P. of Operations and Sales.

ILG is a leading U.S. imaging supplies manufacturer with over 500 Skus's of in-depth product lines. Our toner cartridges utilize custom formulated premium toners, we use only the OEM virgin cores, and quality components custom selected by our engineering team. ILG's products are manufactured in our state-of-the art facilities, ensuring our products are of top quality.

ILG offers a comprehensive selection of OEM alternative cartridges including toner, MICR toner, thermal transfer products and inkjets. Headquartered in Woodland Hills, CA, we operate three additional distribution facilities in Illinois, Texas and Pennsylvania, enabling us to offer next day delivery.
