## **JUMBO COLOR™, ILG'S EXCLUSIVE COLOR PRODUCT PROVIDES 20% HIGHER YIELD, OFFERING SUBSTANTIAL COST SAVINGS FOR MPS PROVIDERS.**

**WOODLAND HILLS, Calif.** — **ILG** (International Laser Group), a U.S. based leading manufacturer of premium compatible imaging supplies, is proud to offer our exclusive line of JUMBO COLOR™ with 20% higher page yield in comparison to standard yield.

JUMBO COLOR™ are compatible laser toner cartridges designed for use in HP color laserjet 4600/3600/4700 printers. ILG is the only company in the world to offer this ultra high-yield quality product. The product is engineered and manufactured in America and produces an excellent print quality at substantial savings over OEM standard yield toners. Jumbo Color lines are compatible to HP 3600/3800, HP 4600/4650, and HP 4700 printer series. This unique high-yield toner cartridge provides 20% higher-yield, making this line a value added solution for MPS providers.

The HP Color LaserJet® 4600™ is the number one installed color printer around the world, and ILG's compatible laser toner offers an intelligent alternative to this popular brand. ILG's first-to-market releases and our quality engineering systems here in the U.S. are what make us the leader in the industry.

With ILG's JUMBO COLOR, MPS providers, resellers, and service technicians can benefit and prosper from our product line. JUMBO COLOR series are available in:

**HP 3600/3800** printer cartridge (black,) compatible Q6470X with ILG's Jumbo yield of 7200, vs. 6000 OEM yield. Compatible series are available in colors, cyan, magenta and yellow with yield of **4800**, vs. 4,000 OEM yield.

**HP 4600/4610/4650** (black), compatible C9720X with Jumbo yield of **10,800**. vs. 9000 OEM yield. Also available in color, C9721X (C), C9722X (Y), C9723X (M) with Jumbo yield of **9600** vs. 8000 OEM standard yield.

**HP 4700** series (black), compatible Q5950X with ILG's Jumbo yield of **13,200** vs 11,000 OEM yield, and color toner cartridges with yield of **12,000** vs. 10,000 for OEM standard yield.

The Color LaserJet® HP 4600™ series color printer was released in June 2002 and was intended for workgroups with high volume and high quality color printing needs. In June 2004, the 4600™ series was replaced by the 4650™ series, basically the same machine but boasting a faster processor. Both LaserJet® printer series share the same toner cartridges. The cartridges are an all-in-one design, each with its own chip to monitor toner levels, supply status and usage. ILG has developed a quality alternative to high priced OEM toners. We stock over 400 SKU's of most the popular brands in monochromes and in color.

ILG's U.S.A. production and assembly facility, with its stringent quality priority systems guarantees each and every toner cartridge is designed to meet the OEM standards. ILG custom selects virgin cores to ensure our cartridge and its toners are of the best quality, and free from defects.

"We are truly unique and proud to offer the JUMBO COLOR which is the first-to-market in the entire world. Our compatibles provide the most cost-effective and environmentally friendly solutions for all of us in the industry." Said Joe Shulman, V.P. of sales and operations.

At ILG, each and every cartridge is pre and post tested to ensure outstanding performance and maximum quality of the OEM standard. Each toner cartridge offers a 2 year warranty with a 100% guarantee on our products to be free from defects.

Founded in 1988, International Laser Group, ILG is one of the world's top private-label contract manufacturers and distributors of compatible imaging supplies.

Located in Woodland Hills, CA they operate three additional distribution facilities in Illinois, Texas and Pennsylvania enabling us to offer next day delivery.
