

## **International Laser Group (ILG) Jumps into Xerox Color!**

*October 1, 2005*

WOODLAND HILLS, Calif. – International Laser Group

International Laser Group (ILG), the industry-leading manufacturer of premium compatible imaging supplies, announced the release of 21 new imaging products for Xerox Color Printers. The new ILG products include laser toner cartridges for the popular Phaser 6250 and 6200 printers, as well as solid ink sticks for the Phaser 8400 and 8200 printers.

ILG color supplies are in high demand. Recently, the company was forced to add 38,000 sq. ft. to their Onsite Color Facility, a mere seven months after opening the facility last Fall. The manufacturer now offers a broad selection of imaging supplies for all the most popular color machines, like HP's 3115, 2550, 3845, 4650, 5550, and 8500, Canon's MF817C, and now the Xerox 6250 and 8400.

"Color is the fastest growing segment of the imaging market. Printer manufacturers are practically giving away inkjet printers, and even color laser printers are becoming more and more affordable," states Joe Shulman, COO. "The result is that most home offices have the ability to print, fax and scan in color, while a growing number of businesses are adding color laser printers along side their black-and-white printers."

ILG's Xerox-compatible supplies offer significant savings to the consumer, while providing the same crisp images, true-to-life colors and batch-to-batch color consistency as their OEM counterparts. As with all ILG toner cartridges, the Xerox line features ISO 9002 graphics-grade toner. Every ILG cartridge is required to pass four different quality control tests, and is backed with a 100% Quality and Satisfaction Guarantee. Private-labeling is offered free-of-charge, and custom packaging is available upon request.

ILG's corporate philosophy of offering superior products and customer satisfaction at exceptional pricing has made the company one of the world's top private-label, contract manufacturers and distributors of compatible printer and fax cartridges. With warehouse and distribution centers strategically located throughout the United States, they are able to offer Next-Day Delivery anywhere in the nation.
