Q2682A	WILG682A-1	<b>Yellow</b>	6,000 pages
Q2683A	WILG683A-1	<b>Magenta</b>	6,000 pages

“We are proud to add these seven new cartridges to our product offering,” says Joe Shulman, COO. “Color is the fastest growing segment in our industry. As color laser printers become faster and more affordable, the demand for their consumables is skyrocketing. ILG is committed to offering a complete line of high-quality compatibles for all the most popular color laser printers.”

ILG color supplies are in high demand. In September of 2004, the company opened a new facility dedicated exclusively to manufacturing color cartridges. Seven months later, ILG added another 38,000 sq.ft. of warehouse and manufacturing space to meet demand for ILG color products. The manufacturer now offers a broad selection of imaging supplies for all the most popular color machines, like HP’s 3115, 2550, 3845, 4650, 5550, and 8500, the Xerox 6250 and 8400, and now the HP LaserJet 3500, 3550 and 3700.

ILG’s HP-compatible supplies offer significant savings to the consumer, while providing the same crisp images, brilliant, true-to-life colors and batch-to-batch color consistency as their OEM counterparts. As always, ILG backs these cartridges with their legendary 5-Star Warranty. Every ILG cartridge is required to pass four different quality control tests, and is backed with a 100% Quality and Satisfaction Guarantee. As with all ILG toner cartridges, the HP line features ISO 9002 graphics-grade toner. Private-labeling is offered free-of-charge, and custom packaging is available upon request.

Founded in 1988, ILG’s corporate philosophy of offering superior products and customer satisfaction at exceptional pricing has made the company one of the world’s top private-label, contract manufacturers and distributors of compatible printer and fax cartridges. With warehouse and distribution centers strategically located throughout the United States, they are able to provide next-day delivery at ground prices anywhere in the nation.
