

International Laser Group (ILG) Releases Jumbo-Yield Universal Cartridge for LaserJet 4200/ 4300/ 4250/ 4350 and 4345mfp Printers

June 2006

WOODLAND HILLS, Calif. – International Laser Group

International Laser Group (ILG), one of America's Top-10 manufacturers of premium compatible imaging supplies, announced the release of a Universal cartridge for LaserJet 4200, 4300, 4250, 4350 and 4345mfp printers. This new ILG cartridge is a high-yield replacement for five different HP cartridges: the Q1338A, Q1339A, Q5942A, Q5942X and Q5945A.

ILG's new Universal Cartridge is a jumbo-yield product that prints over 20,000 pages at 5% page-coverage. In most cases, the OEM offers only a standard-yield cartridge for these printers:

ILG Universal Cartridge Printer Compatibility	OEM Offers	OEM Page Yield
LaserJet 4200	Standard Yield Only	12,000 pages
LaserJet 4300	Standard Yield Only	18,000 pages
LaserJet 4250/4350	Standard Yield High Yield	10,000 pages 20,000 pages
LaserJet 4345mfp	Standard Yield Only	10,000 pages

"Our new Universal cartridge is an incredible value to resellers and consumers," says Gary Michaels, CEO. "End-Users benefit from a significantly higher page-yield than is offered by an OEM cartridge, while still enjoying the savings that are always provided by ILG compatible cartridges. ILG resellers can free up valuable shelf-space by offering one product that is compatible to five different cartridges. It's a win-win for everyone!"

ILG's HP-compatible supplies offer considerable savings to the consumer, while providing crisp copy and smooth greyscale transitions on every print. This most recent product addition features a new drum and ISO 9002 certified graphics-grade toner. As with all ILG-manufactured product, the Universal cartridge is required to pass multiple stringent quality control tests, and is backed with a 100% Quality and Satisfaction Guarantee.

Founded in 1988, ILG offers a huge selection of Laser Toner Cartridges, MICR Toner Cartridges, Inkjet Cartridges and Thermal Transfer products for all the most popular printers and fax machines. Equipped with the industry's most advanced manufacturing equipment and a highly-regarded reputation for product quality, the manufacturer serves as one of the nation's premier beta-test sites for advances in cartridge chip technology, toner formulation, and other aftermarket innovations. With warehouse and distribution centers strategically located throughout the United States, ILG is able to provide rapid, cost-effective delivery anywhere in the nation. Private-labeling is offered free-of-charge, and custom packaging is available upon request.
