

International Laser Group (ILG) Releases Lexmark E230 Cartridge

November 2006

Woodland Hills, CA - International Laser Group (ILG), one of America's oldest continuously family-owned contract manufacturers of compatible laser, inkjet and fax replacement cartridges, is pleased to announce the release of their compatible laser toner cartridge for the Lexmark E230, E232, E234, E330, E332, E340 and E342 Series printers.

ILG's E230 cartridge features ISO 9002 certified graphics-grade toner and provides a minimum yield of 2,500 pages of print, which exactly equals the OEM's specifications for the 24035SA and 24015SA cartridges. As with all ILG products, the E230 cartridge undergoes rigorous QA testing, and is backed with a 100% Quality and Satisfaction Guarantee.

The E230 cartridge is the fourth cartridge the company has added to their Lexmark-line this year, giving ILG one of the largest selections of Lexmark-compatible products in the industry.

"It can be challenging to produce quality Lexmark compatibles. The cartridge design makes them fragile during shipment," states Joe Shulman, Vice President. "Through internally developed innovations to the cartridge design by our #1 ranked New Product Development Group, the Lexmark-compatible product line holds up just as well or better than the OEM during shipment."

Founded in 1988 by Cindy and Gary Michaels, ILG prides itself on making Quality its #1 Priority and on providing customer service that is second to none. The company's corporate philosophy of offering superior products and customer satisfaction at exceptional pricing has made ILG one of the world's top private-label, contract manufacturers and distributors of compatible printer and fax cartridges. With warehouse and distribution centers strategically located throughout the United States, they are able to provide next day delivery at ground prices anywhere in the nation. Private-labeling is offered free-of-charge, and custom packaging is available upon request.

Contact ILG at (800) 937-2880 ext. 3207 or ext. 3210, or visit www.ILGlaser.com
