

## International Laser Group (ILG) Announces Color LaserJet 4730mfp Cartridges

*December 2006*

WOODLAND HILLS, Calif. – International Laser Group (ILG), America's oldest and only Top-10 woman-owned manufacturer of premium compatible imaging supplies, announced the release of a full line of color cartridges for HP Color LaserJet 4730mfp Series printers. ILG's Q6460A (black), Q6461A (cyan), Q6462A (yellow) and Q6463A (magenta) compatible cartridges each yield 12,000 pages, exactly equaling HP OEM specifications.

"With the recent expansion of our R&D Department, ILG product introductions have been accelerating," states Joe Shulman, Vice President. "The release of our HP 4730mfp cartridges is an example of our unwavering commitment to be first-to-market on all the hottest compatible products. Our customers will receive a perfect color match to the HP brand, and the rock-solid quality they have learned to expect from ILG."

The veteran manufacturer now offers a broad selection of imaging supplies for all the most popular color machines, including HP's 1500, 1600, 2600n, 3115, 2550, 3500, 3550, 3600, 3700, 3800, 3845, 4650, 4700, 5550, and 8500, the Xerox 6250 and 8400, and now the HP LaserJet 4730mfp series.

ILG's HP-compatible supplies offer significant savings to the consumer, while providing the same crisp images, brilliant, true-to-life colors and batch-to-batch color consistency as their OEM counterparts. As always, ILG backs these cartridges with their legendary Five-Star Warranty. Every ILG cartridge is tested against stringent quality assurance standards, and is backed with a 100% Quality and Satisfaction Guarantee. As with all ILG toner cartridges, the HP line features ISO 9002 graphics-grade toner.

Founded in 1988 and based in Woodland Hills, California, ILG has grown to a multi-million dollar manufacturer, offering a complete line of printer, fax and multi-function cartridges. Equipped with the most advanced manufacturing equipment and a highly-regarded reputation for superior product quality, ILG serves as one of the nation's premier beta-test sites for advances in cartridge chip technology, toner formulation, and other aftermarket innovations.
