

International Laser Group (ILG) Releases LaserJet P3005 Cartridges

May 2007

WOODLAND HILLS, Calif. – International Laser Group (ILG), one of the industry's Top-5 manufacturers of premium compatible imaging supplies, announced the release of its high-yield and standard-yield cartridges for HP LaserJet M3027mfp, M3035mfp and P3005 printers.

ILG's Q7551A-compatible (standard-yield) cartridge offers a yield of 6,500 pages, while their Q7551X-

compatible (high-yield) cartridge yields 13,000 pages exactly equaling HP OEM specifications. ILG's P3005 cartridges feature ISO 9002 certified graphics-grade toner, and provide the same crisp copy and smooth grey-scale transitions as their OEM counterparts. As with all ILG manufactured toner cartridges, ILG's P3005 cartridges are tested against stringent quality assurance standards and backed with a 100% Quality and Satisfaction Guarantee.

"Two years ago we made a commitment to be fast-to-market on all the hottest new HP printers," says Joe Shulman, Vice President. "We continuously push our R&D Department to release new high-quality products quickly, and they continuously exceed our expectations. The LaserJet P3005 cartridges are the hottest monochrome products we have released this year. We believe that our customers will capture some very attractive revenue and margin opportunities."

Founded in 1988, ILG manufactures reliable, leak-free cartridges that provide high margins to the reseller and significant savings for the end-user. Armed with the industry's most advanced manufacturing equipment, and a rigorously trained technical staff that is STMC certified, ILG has earned a reputation for quality and innovation. With distribution centers strategically located throughout the United States, the company is able to offer rapid, cost-effective delivery anywhere in the nation. Private-labeling is offered free-of-charge, and custom packaging is available upon request.
