

## International Laser Group (ILG) Releases Color LaserJet CP4005 Cartridges

*June 2007*

WOODLAND HILLS, Calif. – International Laser Group (ILG), a top-five compatible imaging products manufacturer with distribution centers strategically located in every major geographic region of the United States, announced the release of the full set of cartridges for HP Color LaserJet CP4005 Series printers.

ILG now offers a broad selection of imaging supplies for all the most popular color machines, including HP's 1500, 1600, 3115, 2550, 2600n, 3500, 3550, 3600, 3700, 3800, 4600, 4650, 4700, 4730mfp, 5500, 5550, and 8500, and now the LaserJet CP4005.

The company is proud of the depth and quality of its color line. "Building a quality color cartridge is tricky and ILG has invested a mountain of resources into assuring quality. We do field simulation destructive testing, and then further stress the product by putting it in the customer's environment," explains Joe Shulman, Vice President. "We've done so much work here and it's paid off. We challenge you to find a better compatible color cartridge."

ILG's LaserJet CP4005 cartridges feature ISO-9002 graphics-grade toner and are meticulously analyzed and tested to ensure the best performance. They are designed to meet or exceed OEM page yields, while providing the same brilliant, true-to-life colors and batch-to-batch color consistency as their OEM counterparts. The ILG compatible CB400A (black), CB401A (cyan), CB402A (yellow) and CB403A (magenta) cartridges each yield 7,500 pages, exactly equaling HP OEM specifications. As always, ILG backs these cartridges with their legendary, rock-solid Warranty.

Founded in 1988 by the Michaels family, ILG offers an extensive selection of Laser Toner Cartridges, MICR Toner Cartridges, Inkjet Cartridges and Thermal Transfer products for all the most popular printers, faxes and multi-function machines. The company serves as one of the nation's premier beta-test sites for advances in cartridge chip technology, toner formulation, and other aftermarket innovations. Today, ILG's world-class manufacturing facility produces more than 75,000 cartridges per month.
