

ILG (International Laser Group) Announces Record Growth In Color Production

November 2007

WOODLAND HILLS, Calif. — ILG (International Laser Group), one of America's oldest continuously family-owned manufacturers and distributors of premium-quality compatible toner cartridges, announced record growth in color production in Q3 2007.

"In the past quarter, our color cartridge production increased an incredible 110%", said Gary Michaels, Chairman and Founder. "Color is the fastest growing segment of the imaging market and ILG's color production is growing right along with that trend."

For almost 20 years, ILG has been a leader in cartridge quality and product development. As color has become more prevalent, ILG has focused its R&D resources on color, positioning itself as a premier manufacturer of compatible color cartridges in the industry.

According to Michaels, "We have worked very hard to develop cartridges that outperform the competition and match the original specifications. We have added multiple specialist engineers in the last year directly focused on color cartridge innovation, consistency, and reliable and robust quality superiority. Our engineers continue to be ahead of the curve in production and availability while maintaining our strict quality standards. We've overcome many industry challenges. We challenge anyone to manufacture a better product. We understand that color is the future for our dealers and we are committed to color cartridge excellence!"

Founded by the Michaels family in 1988, today ILG is a manufacturing powerhouse. Armed with the industry's most advanced manufacturing equipment, and a rigorously trained technical staff that is STMC certified, the company has earned a reputation for producing reliable, leak-free cartridges that provide high margins to the reseller and significant savings for the end-user. With four distribution centers located strategically throughout the United States from coast to coast, the company is able to offer rapid, cost-effective delivery anywhere in the nation.
